BROOKLYN STEAM

A MAKING & LEARNING SUMMER CAMP

Problem Solving. Creativity. Code.

We are excited to launch a program filled with fun computing and building projects for girls and boys. Our week long projects will challenge your children with a series of hands-on, collaborative activities. All of our projects include writing computer code, building with electronics and robotics, and engaging in design thinking to solve problems.

WEEK 1- CODE CAMP (AUGUST 22- 27)

In this week students will learn to crack and create secret codes,

WEEK 2- MAKER CAMP (AUGUST 29- SEPTEMBER 2)

Anemetronics is the name of the game
